ISSAYAH VILLA
SAINT BARTH

A natural elegance

All year round, benefit from bountiful sunshine and a well-resting place with a flavour of paradise.

Allow us to let us lead you into uncovering our most secluded beaches together with sites and addresses we fell in love with.

As well known for the uppermost chic of its designer boutiques as its display of yachts moored within Gustavia's harbour, Saint-Barth is full of dazzling surprises, leaving its mark on anyone staying here.

Hidden gems

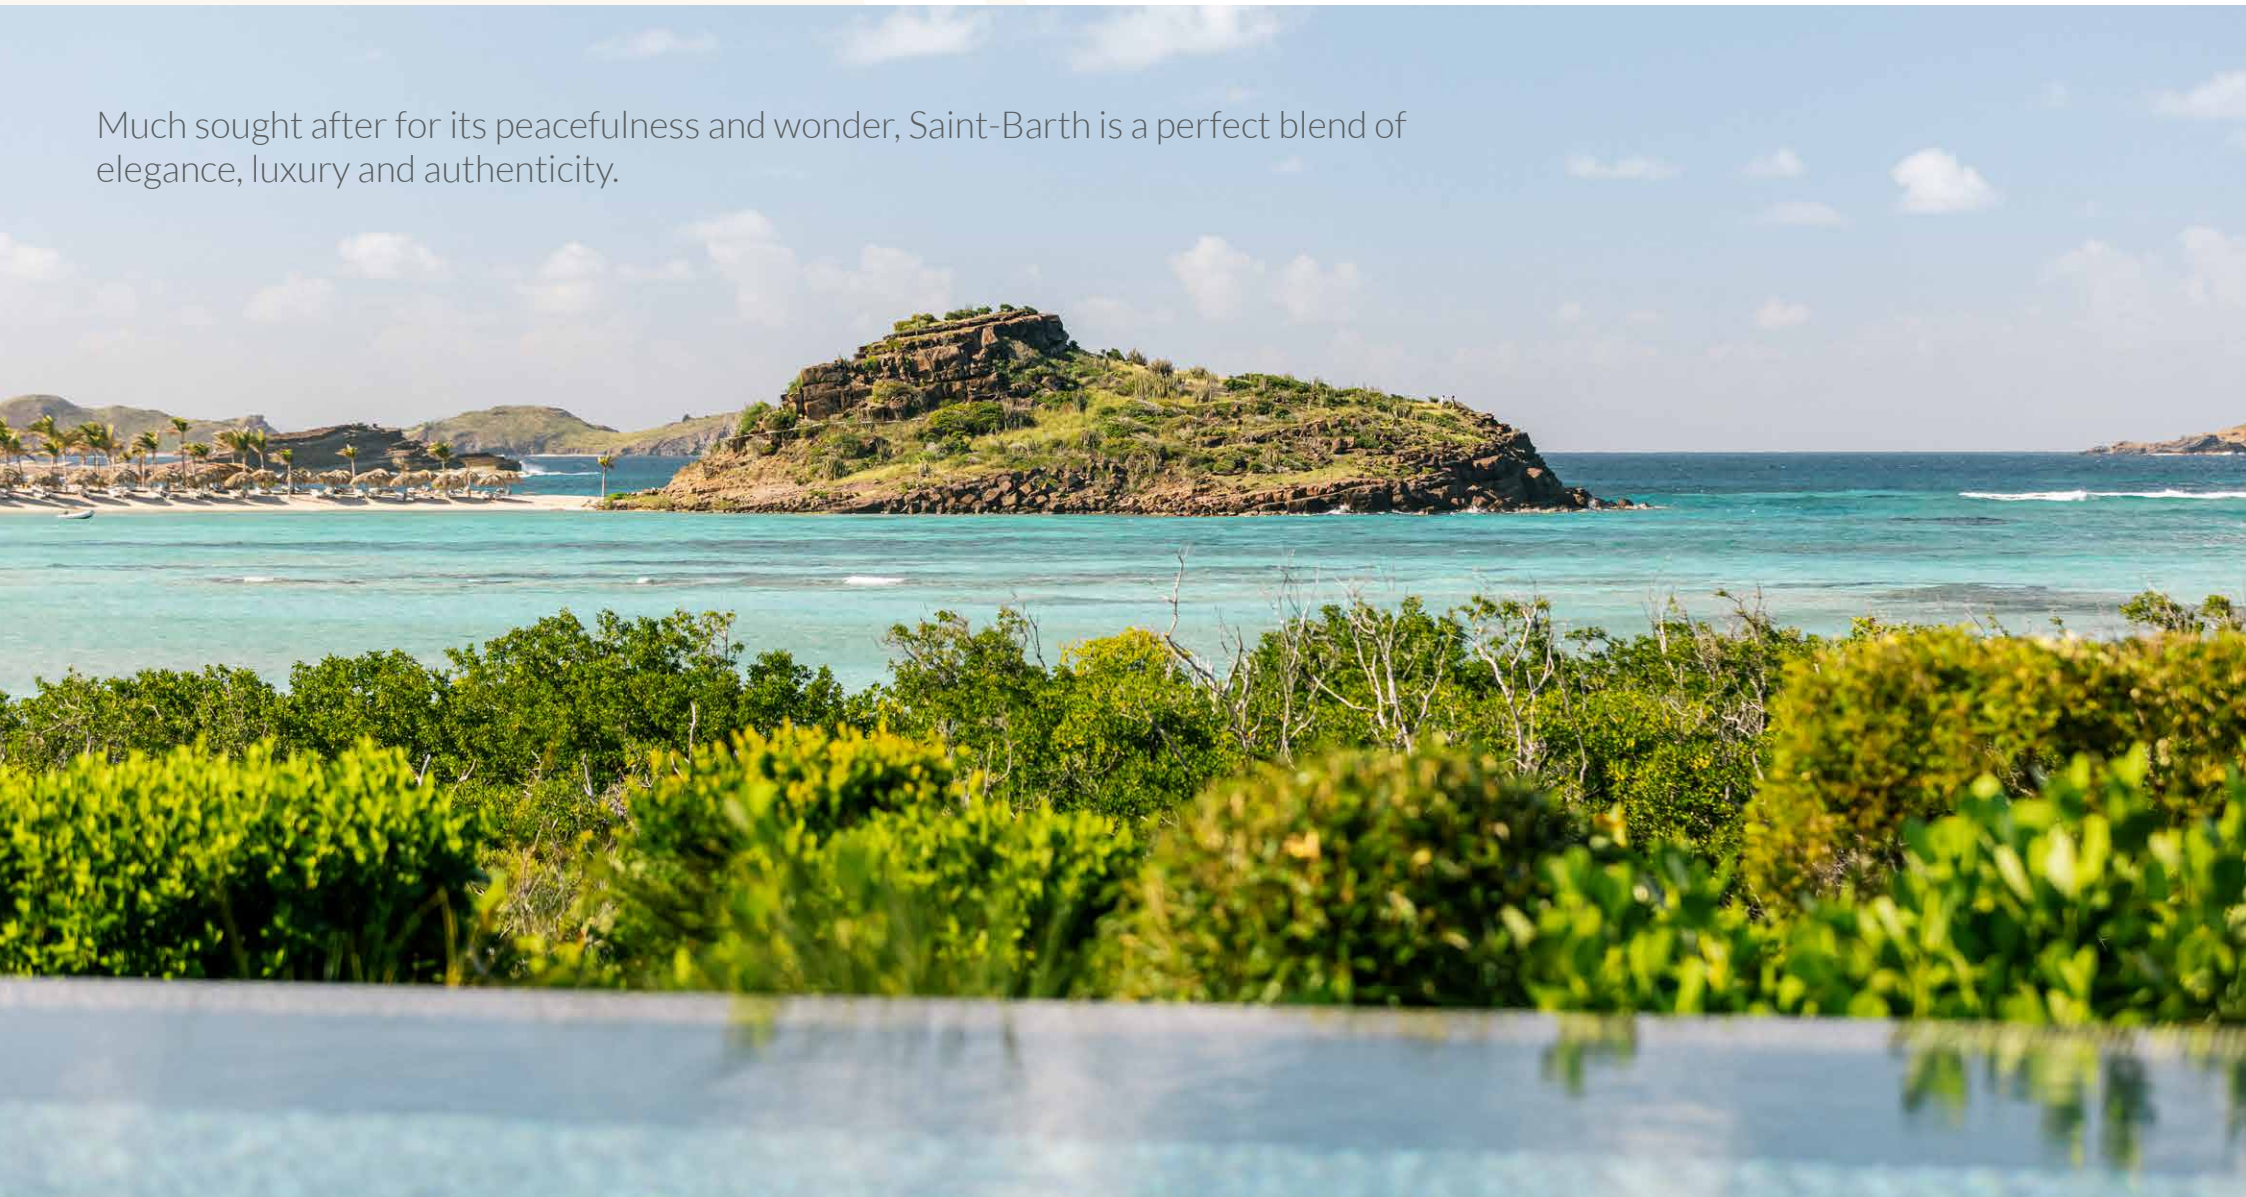

In search of moments of privilege, you will find there a splendid wild bay with crystal clear waters drawing you into a soft daydream.

Now, let's form a picture, with the lukewarm touch of wet sand complemented by the Caribbean Sea backwash, softly ringing to your ear.

You are surrounded by the lagoon's warmth, then, you gaze at the numerous sea turtles slowly making their way to the sea.

The time stands still, welcoming you to explore further.

Much sought after for its peacefulness and wonder, Saint-Barth is a perfect blend of elegance, luxury and authenticity.

Its architecture finely blends nature and luxury, as can be seen in its harmonious lines displayed on designer pieces and local materials such as raw timber, island stones and black slate infused with golden hues.

Without doubts, you are in Saint-Barth, but also elsewhere, in a magnificent and soothing place.

Quartz

Three-bedroom villa including a large outside carbet with a wine cabinet, an outside kitchen area together with a 16 meters heated swimming pool.

The villa is characterized by its pure and luminous decoration, enhanced by design details such as tapestries combining both exoticism and modernity and elegant mashrabiyya.

The boundary between outdoor and indoor disappears, allowing you to enjoy private resting spaces within the garden, together with a large lounge area equipped with a brazier. The villa offers a breathtaking panorama over the entire bay's splendour.

Lazuli

Four-bedroom villa equipped with a well-ventilated carbet together with a wine cabinet and a 16 meters heated swimming pool. The patio mixes the beauty of lush flora within an oasis of natural coolness.

The villa's style is marked by iridescent touches providing a cozy and lively light effect throughout the day.

Its atmosphere resolutely expresses a connection with water, not only due to the lagoon's proximity but to decorative pieces such as this outstanding wood sculpture, reminiscent of driftwood found on the seashore or the genuine white mother-of-pearl adorned wall.

Larimar

Four-bedroom villa, including a large carbet and a 16 meters heated swimming pool directly accessible through the master suite, holding its own private deck and a safe beach area for children.

Its immense garden offers a grandiose view calling for morning walks and its turtles.

Unique items such as wallpapers and ornate gilded metal ceiling light fittings give out an enchanting atmosphere.

A lightweight archway illuminates access to the garden with its amber-like sparkles and starry sky.

Tourmaline

Three-bedroom villa, including a master suite, a 16 meters heated swimming pool and a wine cellar. It offers privileged access to the beach.

The vast terrasse overlooking the sea offers a magnificent view over the bay and its countless lights at nightfall.

Take advantage of idyllic moments shadowed by the magnificent Gaiac kept in its original condition and spent beautiful evenings by the fire round the brazier.

Touches of aged wood and exotic tapestries enhance the villas' natural luxury.

Treat yourself to an exquisite stay in the heart of this earthly paradise.
